

Summarised Background of 3³ Program

Bangladesh is a land of 170 Million people. It is enriched in men power and natural resources. But **the people of Bangladesh** are not free from sufferings **yet,** have **not achieved its true freedom from the bondage of the plotters, conspirers and two dynastic ruling class** even after 45 years of independence from Pakistan. Bongo Bondu Shekh Mujib Rahman being inspired by Mawlana Abdul Hamid Khan Bhashani who could persuade the valiant sons of Bangladesh, led the independence movement. In this sense it is true that he is a great hero. But in the post liberation Bangladesh, **the people have suffered by the followers of shekh mujib more than the way being exploited by then Pakistani rulers,** which started within a very short time. As a result, some bold heroes came out to put an end of it and 15th August is outcome of their attempt. After that Major Zia came up to rebuild this war devastated country. People had a hopes, and started dreaming of new Bangladesh. Bangladesh was marching towards it prosperity. But **within a short span of time, that Ziaur's formed party embedded on corruption festival. In every organs of the society and state, corruption netted it's hive.** This situation has been created due to the absence of good minded people who remained away from participation in building society and state. The honest people do not come to contribute to it, because, there is no proper environment for them. Miscreants and dynastic force held their position in such a way that there is no room for the well-educated and mannered patriots to engage in the wellbeing of my mother land. As a result, **The gap between privileged and non-privileged is widening day by day. The riches getting richer, poor getting poorer.** There is no coincide anywhere, nor a helm man who will show this ill-fated nation a peaceful and prosperous Bangladesh .

The tortured and exploited people of Bangladesh is awaiting salvation from exploitation and tortures of the ruling class. The environment of my beloved mother land is being stormed by the torments and tears of the exploited people. The terrorist made Bangladesh as their safe hub and corruption got its escalated paradise. The oppression mongering dynasties are in a horrible play being trapped in superiority complex. **in the name of democracy , the dynasties are causing uncounted sufferings to my people. Because of their nephew-tism, Bangladesh achieved it championship thrice in world corruption.** To get a relief from this situation, we have to have a pledge, achieve quality and training. Bangladesh needs a group of sons who will be thinking of the country in a dynamic way having pledge to present an exemplary happy, peaceful and prosperous Bangladesh to the world.

At this situation, we the conscious people have to rethink of it, have to have a planned movement that will ensure opportunities for all, create a group of valiant and qualified citizens equipped with educational, social and political values who will bring out Bangladesh from the grip of blood suckers. Out of that thinking, **My 3³ program is invented which will generate a movement of change in Bangladesh through a radical change from root level.**
